

PRESS RELEASE

JEC Korea 2021: A 3-day event for the Asia-Pacific composites community Online and onsite

Paris, July 22, 2021 – From November 3 to 5 JEC Korea 2021 will be the meeting point of the entire composites value chain in the Asia Pacific. Participating companies will present their latest capabilities and innovations to the entire composite community. JEC Korea is the most insightful composites event in Asia-Pacific for products, solutions, networking, and advanced industry thinking. For its 14th edition and 4th time in Seoul, the event will also be available online through JEC Korea Connect.

JEC Korea is back in Seoul after an online edition in 2020 due to the Covid 19 pandemic. More than 200 exhibiting companies are expected with thousands of professionals to network, exchange ideas, explore new opportunities and resume business after a challenging year. JEC Korea 2021 will also be **augmented**, thanks to the **JEC Korea Connect** platform, enabling attendees to join the event online and attend live-streamed conferences.

JEC Korea 2021: at the forefront of composites innovation.

JEC Korea 2021 will celebrate composites Innovation and Knowledge through a rich program of Technical Conferences, the JEC Composites Startup Booster, and the unmissable JEC Composites Innovation Awards Ceremony

JEC Composites Startup Booster, the leading startup competition in the world of composites that enables the community to find and assess innovations with a potential impact on their respective industry. For its third edition in the region, five Asia-Pacific based startups will pitch their project in front of a jury of experts and leading industry players.

The JEC Composites Innovation Awards is a long-established and worldwide program with three simple goals: identity, promotion, and reward of the most innovative composite solutions. Over the past 15 years, the JEC Innovation Program has involved 1,900 companies worldwide; 203 companies and 499 partners have received an award for the excellence of their composite innovations. The JEC Composites Innovation Awards celebrate composites champions based on partner involvement in the value chain, technicality, or commercial applications of innovations. The award ceremony will take place on the second day of JEC Korea, on November 4th, 2021.

JEC Korea 2021 will also feature a fulfilling conference program with experts from the industry giving insights on the latest developments in high-performance composite technologies and applications. The conferences' main themes are:

- International Carbon Festival Conference organized with our partner, KCTech.
- Urban and Unmanned: new mobility solutions and impacts on the composites industry.
- Growth opportunities for composites in hydrogen vehicles
- Construction and Building Solutions: composites systems for reinforcement and repair of buildings.
- Recycling technologies for the industry

In partnership with

See you @JEC Korea 2021
