

April 5<sup>th</sup>, 2022

## The Netherlands, a key country at JEC World 2022

JEC World is back! With its top one mission, to support the growth and promotion of the composite materials industry by developing know-how and business connections channels and platforms. Driven by a wave of enthusiasm and a strong will to get back together, the unmissable event will reunite all the actors of the composites sector giving them the opportunity to meet onsite or online.

### DUTCH KEY FIGURES

- 39 exhibitors
- 1 pavilion with 16 exhibitors
- 2 Innovation Awards finalists

The Dutch composites market is in a good shape and the expectations for the years to come are very dynamic. A dynamism well illustrated, every year at JEC World, as The Netherlands are generally in the Top 5 countries in terms of exhibitors and visitors. For the 2022 edition of JEC World, the trend seems to be constant as one Dutch regional pavilion, led by Composites NL, and some 39 companies have confirmed their participation. Among them: NIPPON ELECTRIC GLASS, AIRBORNE, LANTOR, TORAY ADVANCED MATERIALS, INFRACORE and more (see below).

### A hub for composites innovation

Innovation is an essential part of the Dutch composites market, therefore JEC World will be a key opportunity for exhibitors to showcase their new products and for visitors to get some inspiration through these discoveries. **Two Dutch innovations have been selected for the JEC Composites Innovation Awards 2022:** the structural re-use of thermoset composites, by Windesheim and the InfraCore helideck for 85-meter patrol vessel, by InfraCore Company – a must see for the participants to JEC World, whether on site or online.

***Stay tuned: winners will be announced on a special ceremony one week before JEC World: on April 26<sup>th</sup>!***

### The Netherlands as a “Country on stage”

**Country on Stage sessions are unique opportunities to discover the composites industry structure and strengths of the represented countries.**

The Composites Industry trade association of the Netherlands, CompositesNL, welcomes you to this session during which attendees, onsite and online, will discover the composites ecosystem in the Netherlands and its international outreach through representative business cases on automotive, aerospace, maritime, construction and 3D printing, involving the entire value chain of the Dutch Composites Sector.

#### Speaker(s):

Rudy JURG, Rondal, Jean-Pierre HEIJSTER, Rai Automotive Industry, Edwin VAN HINTE, Lightness Studios, Adriaan BEUKERS, AB Composites Consultants, Tahira AHMED, CompositesNL, Tjaard SIJPKES, Ebusco, Arnt OFFRINGA, GKN Aerospace, Willem BÖTTGER, NPSP, Arnold DE BRUIJN, Netherlands Maritime Technology (NMT), David MANTEN, Collins Aerospace, Focco VIJSELAAR, Ministry of Economic Affairs and Climate.

***Save the date: Wednesday May 4<sup>th</sup>, 10am - 11.25am, Agora 5***

**About JEC Group**

JEC Group is the world's leading company dedicated entirely to the development of information and business connections channels and platforms supporting the growth and promotion of the composite materials industry. Publisher of the JEC Composites Magazine - the industry's reference magazine, JEC Group drives global innovation programs and organizes several events in the world, including JEC World (the foremost and world-leading international exhibition dedicated to composite materials and their applications), which takes place every spring in Paris.
