

PRESS RELEASE

April 5th, 2022

The United States, a key country at JEC World 2022

JEC World is back! With its top one mission, to support the growth and promotion of the composite materials industry by developing know-how and business connections channels and platforms. Driven by a wave of enthusiasm and a strong will to get back together, the unmissable event will reunite all the actors of the composites sector giving them the opportunity to meet onsite or online.

AMERICAN KEY FIGURES

- 120 exhibitors
- 5 pavilions
- 6 Innovation Awards finalists

North America represents 27% of the global composites market in volume and 26% in value. It is a thriving market in terms of R&D, innovations and production. A dynamism well illustrated, every year at JEC World, as the USA are always in the Top 5 countries in terms of exhibitors and visitors.

2022 will not be different: the US Commercial Service comes to the show with the biggest regional pavilion of all, hosting 44 exhibiting companies. A solid presence that will be strengthened by some 120 exhibitors, such as A&P TECHNOLOGY, AGY, MAGNA, OWENS CORNING, THERMWOOD or ZOLTEK.

The United States as a Country on stage

Country on Stage sessions are unique opportunities to discover the composites industry structure and strengths of the represented countries.

This conference will highlight the United States composites market ecosystem and strengths, on a global scale as well as the main technological innovations in key sectors. Representatives of U.S. manufacturers will share their expertise and success stories, from materials to equipment to design, to manufacturing, and to recyclability, in key sectors such as e-mobility, construction, automotive and aerospace and sustainability.

Speaker(s):

Dale BROSIUS, The Institute for Advanced Composites Manufacturing Innovation (IACMI), U.S. Commercial Service speaker, Cindy SQUIRES, American Composites Manufacturers Association (ACMA), Zane CLARK, Society for the Advancement of Materials and Process Engineering (SAMPE), Karl HAWES, Boston Materials, Anthony CIRINGIONE, Concordia Composite Materials, Stephan ZWEIDLER, Accudyne Systems, Amolak BADESHA, Orbital Composites, Evan YOUNG, Qarbon Aerospace, Dale BROSIUS, The Institute for Advanced Composites Manufacturing Innovation (IACMI).

Save the date Wednesday May 4th, 11.30am – 12.55pm, Agora 6

A hub for composites innovation

Innovation is an essential part of the American composites market, this year, BASF Corporation competes in the JEC Composites Innovation Awards with the 2021 Grand Cherokee Composite Tunnel Reinforcement in the Category Automotive & Road Transportation – Structural.

Stay tuned: winners will be announced on a special ceremony one week before JEC World: on April 26th!

SEE YOU THERE!

About JEC Group

JEC Group is the world’s leading company dedicated entirely to the development of information and business connections channels and platforms supporting the growth and promotion of the composite materials industry. Publisher of the JEC Composites Magazine - the industry’s reference magazine, JEC Group drives global innovation programs and organizes several events in the world, including JEC World (the foremost and world-leading international exhibition dedicated to composite materials and their applications), which takes place every spring in Paris.
